

# TypingGame-1 Using JAVA Applet

Date: 15 March 2015

## About Game:

Game is Simple created using applet. In this game you have to press key that appears on bubble. Score will update according to correct key you press. Bubble will disappear if you press correct key. If you miss any bubble then that is considered as loss and if you missed more than 10 bubbles then game over. You can play again by using play again option.
